*Comerica Finance Plan assumes \$5.95M of GAP against \$8.5M in International Unsolds and \$3.5M in LGF FDG. International Sales will fully cover GAP and therefore full LGF FDG will flow to equity following Loan repayment.

**Waterfall assumes C2 are applying their share of Sales Fees to recoup C2 equity/premium which lowers C2 break. This is backed out once C2 recouped to show actual Additional Equity and Net Profits break.
